TOPBRIGHT

Children discover the world through play, learn new things every day and continue to develop. In doing so, they can show what they are capable of and find out what they are enthusiastic about and interested in.

We firmly believe that toys can be entertaining and teach children at the same time. That's why our TOPBRIGHT and SCIENCE CAN brands focus on high-quality educational toys that combine learning with fun. From educational toys to experiment kits, for younger and older kids - it is important to us that our toys support children in their development and awaken their hidden talents and interests. In this way, we accompany and encourage children through the stages of growing up.

When developing our products, we always make sure that they are tailored to the needs of children, parents, and the market. Our passion for innovation is reflected in our products. Each of our products has been carefully developed. We always make sure to offer a great deal of added value. Our products grow with the children and offer them exciting functions for different age groups. With the various features, children learn new skills through play and often test themselves independently. In this way, our products also support parents.

PRESENCE IN CHINA

TOPBRIGHT

TOPBRIGHT's educational toys support babies, toddlers, and children in their early childhood development. Our products focus on playful learning and discovering the world. They are made for children, but we also think of the parents. Developed in a needs-orientated way, our modern educational toys accompany children through the stages of growing up. At the same time, they support parents during the developmental milestones of their little ones. Our designs are therefore both multifunctional and appealing. For us, the mix of high-quality materials is just as important as having fun while learning.

THE SOLAR SYSTEM

The universe at your fingertips

160231 | 6-12Y

- Double-sided knowledge & quiz cards on the topics Our Solar System, Universe, Aerospace, Space Phenomena, Astronomical Tools, Curious Facts
- Sun projects images of the discs onto walls or the ceiling
- Voice output in English & French or English & German

<p>SUN PROJECTOR FUNCTION</p>	<p>48 INTERESTING FACTS AND 53 FASCINATING QUESTIONS ABOUT OUR SOLAR SYSTEM</p>
<p>3 DISCS WITH 8 FASCINATING IMAGES EACH ON SPACE & SPACE TRAVEL</p>	<p>3D SOLAR SYSTEM WITH MOVING PLANETS</p>

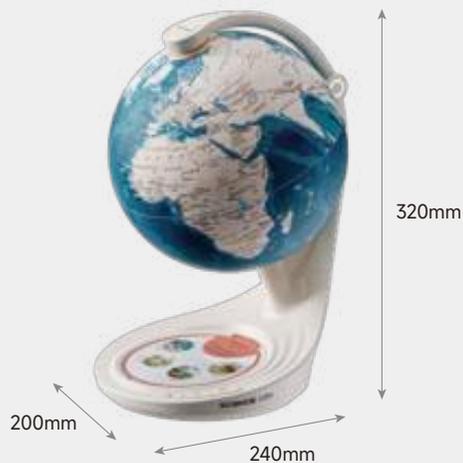

THE EARTH

A knowledge journey into and around our earth

160232 | 6-12Y

- Knowledge cards on the topics Around the World, Cave Science, Earth Layers, Ages of the Earth, Natural Wonders of the World
- Globe opens to reveal earth's layers and core
- Integrated quiz with self-check function
- Voice output in English & French or English & German

18 KNOWLEDGE CARDS WITH 66 INTERESTING FACTS & 48 FASCINATING QUESTIONS

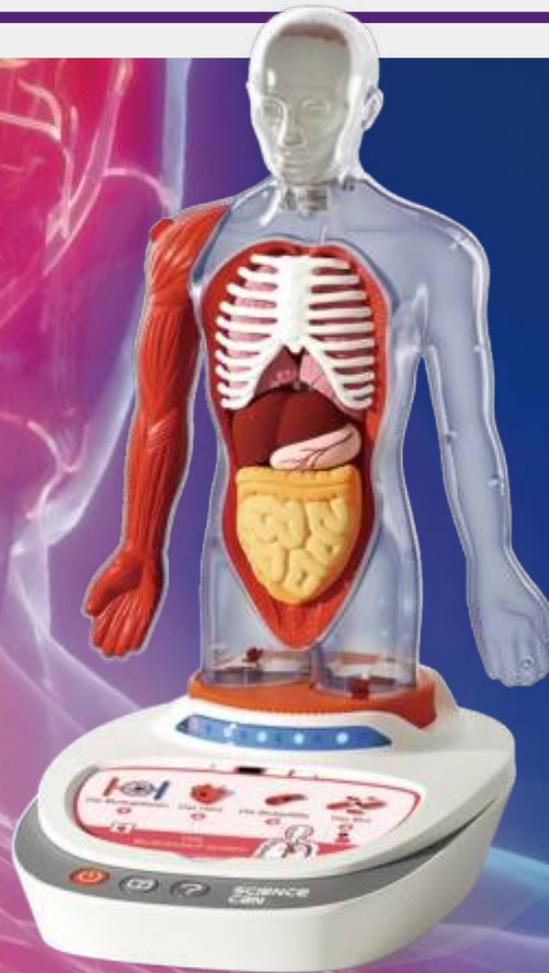

DYNAMIC LIGHT IN THE EARTH'S CORE

REMOVABLE PART OF THE EARTH LAYERS INSIDE

EXPLANATION & QUIZ FUNCTION

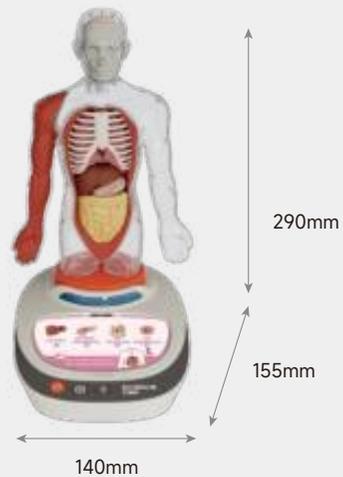

THE HUMAN BODY

A knowledge journey to discover, experience, and learn

160022 | 6-12Y

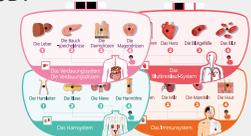

- 3D model of the human body
- Getting to know organs, their names, and their location
- Explanations of the tasks and functions of organs in the body
- Integrated quiz with self-check function
- Voice output in English or German

WITH ENCYCLOPEDIA & QUIZ FUNCTION

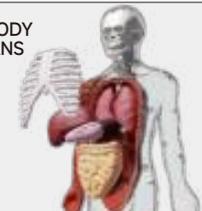

40 INTERESTING FACTS ABOUT THE HUMAN BODY

360° ROTATABLE

REMOVABLE BODY PARTS & ORGANS

OUR SOLAR SYSTEM

The universe at your fingertips

- 3D model of our solar system
- Voice output in English & Spanish or English & German
- With stickers to stick on the planets on the base
- Discover the solar system through play

TELESCOPE HORIZON STAR

A journey into the distance

About refracting telescopes:

- Use lenses to focus the light
- Good image quality for observations on Earth and planets
- No disturbing parts in the image
- Easier to maintain

- Design refracting telescope
- Eyepiece with 20-60x magnification
- Instructions with information on assembly and tips for first observations

160285 | 8-99Y

UP TO 60X MAGNIFICATION

DISCOVER THE MOON, WATCH BIRDS AND EXPLORE STUNNING LANDSCAPES

INCL. SMARTPHONE HOLDER

INCL. ALUMINIUM TRIPOD

TELESCOPE COSMIC STAR

A journey to
the stars

About reflecting telescopes:

- Use mirrors to focus the light
- High Quality Image
- Larger aperture allows clearer view of distant objects and space
- Better temperature stability

- Design reflector telescope
- Observations far into space
- Telescope for professional observations
- Instructions with information on assembly and tips for first observations

TELESCOPE ASTRO STAR

A journey to
the stars

About refracting telescopes:

- Use lenses to focus the light
- Good image quality for observations on Earth and planets
- Easier to maintain

- Design refracting telescope
- 2 eyepieces with 16x & 40x magnification and 3x magnifying lens
- With star finder objective for adjusting the telescope during observations
- Instructions with information on assembly and tips for first observations

PROJECTOR MICROSCOPE 350

Explore our microcosm

160153 | 6-12Y

- 2 microscope eyepieces with 60x & 350x magnification
- Project images of the projection slides onto walls or the ceiling using the projector attachment
- With research equipment: tweezers, pipette, dissecting instrument, blank slides
- Microscope slides with prepared specimens and corresponding knowledge cards
- Lightweight & compact microscope, ideal for traveling
